

Stainless Steel Cable Labels

On Solar farm projects comes cables—a lot of them! It is essential to know where each cable is, and where it connects to. This is vital when fault finding and maintenance is required. With our cable labels we use 316 Stainless Steel for the most corrosive environments and Laser etched permanent text to ensure a long lasting solution.

Product Specifications

Material Grade	553160.4mm Stainless Steel
Operating Temp	-80° to +538° Celsius
Density	8000kg/m3
Tensile Strength	515 (MPA)
Yield Strength	205 (MPA)

Benefits

- No water absorption
- Non-flammable
- Excellent ultraviolet resistance with Rotag cable labels
- Excellent chemical resistance
- Provides a strong, durable method of cable labelling
- Can be used in a wide range of indoor, outdoor and underground applications
- Smooth surfaces and rounded edges assures cable

- protection and worker safety
- Laser etched permanent text
