

E2-CC Identimark Stainless Two Cable Clip

E2-CC simplifies wire management and create a cleaner aesthetic to solar PV arrays. The clips are made of corrosion resistant stainless steel and are designed to prevent damage to cable insulation. The design is easy to install and remove with a flat head screwdriver and can be reused, unlike zip ties. The universal design fits most modules and can hold up to 2 cables of up to 7mm diameter.

|------------------------------|---------------------|
| Material Type | 304 Stainless Steel |
| Material Grade | SUS304 H 0.5mm |
| Density (kg/m ³) | 8000 |
| Tensile Strength (Mpa) | 520 |
| Yield Strength (Mpa) | 240 |

Benefits

- Holds 2 cables
- Provides a strong, durable method of cable attachment
- Smooth surfaces and rounded edges assures cable protection and worker safety
- No water absorption
- Non-flammable
- Excellent ultraviolet resistance
- Excellent chemical resistance
- Quick and easy to install
